

## Standard #4 Measurement and Analysis of Student Learning and Performance

Use this table to supply data for Criterion 4.2. (Figure 4.2 in self-study)

Performance Indicator	Definition																			
1. Student Learning Results	<p>A student learning outcome is one that measures a specific competency attainment. <i>Examples of a direct assessment (evidence) of student learning attainment that might be used include: capstone performance, third-party examination, faculty-designed examination, professional performance, licensure examination.</i> Add these to the description of the measurement instrument in column two:</p> <p>Direct - Assessing student performance by examining samples of student work                      Indirect - Assessing indicators other than student work such as getting feedback from the student or other persons who may provide relevant information.                      Formative – An assessment conducted during the student’s education.                      Summative – An assessment conducted at the end of the student’s education.                      Internal – An assessment instrument that was developed within the business unit.                      External – An assessment instrument that was developed outside the business unit.                      Comparative – Compare results between classes, between online and on ground classes, Between professors, between programs, between campuses, or compare to external results such as results from the U.S. Department of Education Research and Statistics, or results from a vendor providing comparable data.</p>																			
Performance Measure	What is your measurement instrument or process?	Analysis of Results			Insert Graphs or Tables of Resulting Trends (3-5 data points preferred)															
Measurable goal	Do not use grades.	Current Results	Analysis of Results	Action Taken or Improvement made																
What is your goal?	(Indicate type of instrument) direct, formative, internal, comparative	What are your current results?	What did you learn from the results?	What did you improve or what is your next step?																
Traditional undergraduate core level business knowledge equal or above mean score of comparative programs.	Peregrine Academic Comprehensive test given to seniors. This is direct, summative, external comprehensive data.	The average mean score for traditional programs was 47.4% in 2019 and 52.62% in 2020.	This is a great result. All the scores in every area were significantly improved, except for management in 2019. We are not sure if this is a trend or an outlier, but mangement results improved significantly in 2020.	Last year the dean reviewed the test results with all core business faculty and encouraged them to cover the CPC topics. This worked and the scores were much improved. We will review the management score with the new instructor.	<table border="1" style="margin-top: 10px; width: 100%; text-align: center;"> <caption>Traditional Comprehensive Test Data</caption> <thead> <tr> <th>Year</th> <th>Percentage</th> </tr> </thead> <tbody> <tr><td>2015</td><td>42%</td></tr> <tr><td>2016</td><td>43%</td></tr> <tr><td>2017</td><td>44%</td></tr> <tr><td>2018</td><td>48%</td></tr> <tr><td>2019</td><td>47%</td></tr> <tr><td>2020</td><td>53%</td></tr> </tbody> </table>	Year	Percentage	2015	42%	2016	43%	2017	44%	2018	48%	2019	47%	2020	53%

Traditional undergraduate Accounting majors interpret financial statements and GAAP principles by performing at a 85% or above on an exam.	The GAAP and financial statements exam is given to seniors. This is direct, summative and internal.	90% in 2019 and 82% in 2020.	This score was slightly lower than previous years. The instructor noted that a few students were very poor test-takers.	There is a new accounting instructor this year who will be coaching the students on their test-taking skills.	<table border="1" style="margin-top: 10px; width: 100%; text-align: center;"> <caption>Accounting Majors GAAP Data</caption> <thead> <tr> <th>Year</th> <th>Percentage</th> <th>Target</th> </tr> </thead> <tbody> <tr><td>2017</td><td>94</td><td>85</td></tr> <tr><td>2018</td><td>90</td><td>85</td></tr> <tr><td>2019</td><td>90</td><td>85</td></tr> <tr><td>2020</td><td>82</td><td>85</td></tr> </tbody> </table>	Year	Percentage	Target	2017	94	85	2018	90	85	2019	90	85	2020	82	85

Non-traditional undergraduate core ethical personal reflection. Average student score of 3.5 on 5-point scale.

This essay asks students to reflect on their personal faith and values. This is a direct, summative, internal and comparative assessment.

4.09 in 2019 and 3.72 in 2020.

Overall, papers are well written. Students papers are more reflective in nature and less articulate in ethical theories.

As a result, this course will be redeveloped by a subject matter expert who will look at using a different textbook that is stronger in reviewing ethical theories.

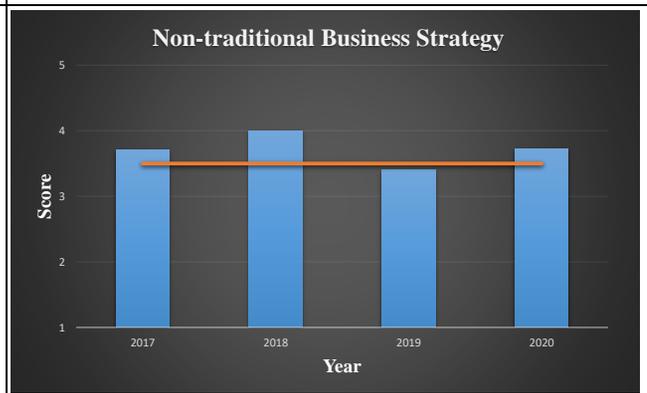

Non-traditional undergraduate Business Management majors score a 3.5 or higher on recommending a business strategy.

Students write a paper strategizing how a current company could improve their business strategy. This is direct, internal and summative.

3.4 in 2019 and 3.7 in 2020

Student scores improved from last year. However, it appears that a few students still struggle with how to come up with a new strategy to meet a new target market or expansion of business scope, etc.

The business faculty lead will review the course content to investigate if there is a way to better guide struggling students in how to develop a new business strategy that would enhance business outcomes.

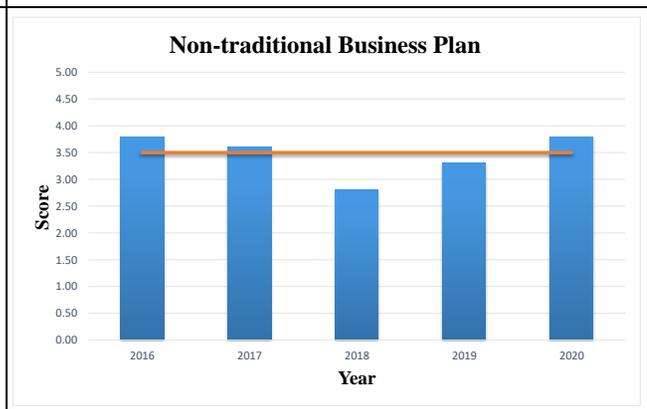

Non-traditional undergraduate core students write a realistic entrepreneurial business plan. Average student score is a 3.5 on a 5-point scale.

Students write a business plan of a startup business, evaluating innovation and reliance on data. This is internal and formative.

3.37 in 2019 and 3.85 in 2020.

This is the second year since the course was completely rebuilt. The faculty and students are adjusting to the new course design.

The faculty lead will make two changes for next year: change the assignment prompt so that the business plan is formatted correctly - instead of an essay format, and secondly, include more peer review in developing the business plan.

<p>Non-traditional undergraduate majors score 3.5 or above on 5-point scale on a conflict resolution strategy essay.</p>	<p>Students write an essay apply their conflict strategy skills to a personal situation. This is direct, internal and summative.</p>	<p>4.66 in 2019 and 4.56 in 2020.</p>	<p>This year, the online students performed well on this assignment.</p>	<p>A subject matter expert will review the online course and determine if a remote learning platform, such as Zoom, can be integrated into the course to provide students with an opportunity to negotiate while also having access to the other student's non-verbal expressions.</p>	<h3 style="text-align: center;">Non-traditional Conflict Resolution</h3> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Year</th> <th>Score</th> <th>Target</th> </tr> </thead> <tbody> <tr> <td>2017</td> <td>4</td> <td>3.5</td> </tr> <tr> <td>2018</td> <td>4</td> <td>3.5</td> </tr> <tr> <td>2019</td> <td>4.66</td> <td>3.5</td> </tr> <tr> <td>2020</td> <td>4.56</td> <td>3.5</td> </tr> </tbody> </table>	Year	Score	Target	2017	4	3.5	2018	4	3.5	2019	4.66	3.5	2020	4.56	3.5
